**Thickness :** 16mm

**Width:** 1000mm

**Weight:** 3.4kg/sqm

## Acoustic Test Results

Flow [l/s]	0,5	1,0	2,0	3,0	4,0
Insersion loss $D_{i,A}$ [db(A)]	17,0	17,5	15,0	15,0	13,0

✓ Easy Installation    ✓ Environmentally friendly material    ✓ ISO Certified

## Installation Instruction

(scan the code on the back of this page for the installation video)

### Measure & cut

The sheet should be cut along its length, about 5 cm more than the diameter of the pipe for overlap.

### Wrap

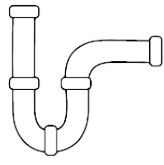

Place the sheet around the pipe So that the part with the protruding sponge will be directed towards the exposed part of the pipe.

### Connect

The sheet must be fixed to the pipe using Zip ties.
